

Mitsubishi Electric- Looking forward to a green future in more ways than one.

Dublin, 13th May 2014

Mitsubishi Electric a global, leading green technology company, has reaffirmed their commitment to Ireland with the announcement of a multi-million euro investment in their Irish operations.

Spearheading this new development is Ciarán Moody, who takes up the post of General Manager for Ireland. At the ceremony to announce Ciarán's appointment and to open a new state of the art customer training and technology facility at their Ballymount offices, Ciarán added

“Mitsubishi Electric has a strong heritage in Ireland going back over 30 years and the latest investment demonstrates Mitsubishi Electric's confidence in the Irish branch and in the Irish economic recovery.”

In addition, the investment in Ireland also represents a jobs boost with staff levels increasing in recent months across the two divisions of Mitsubishi Electric. Those divisions driving growth in the area of sales and marketing across Ireland are the Factory Automation division, which offers a vast range of automation and processing technologies, and the Living Environmental Systems division offering solutions to heat, cool and ventilate your world.
